

# Set My People Free

Dara Maclean

I once was a captive heart  
Crying out like a fire alarm  
Then grace rescued me  
You never stopped 'til I was found  
You never tire of calling out  
This love is everything

After all You've done in me  
I will be Your hands and feet  
Follow where You will lead  
As You say

Set My people free  
Go into the world, every boy and girl  
Deserves to know a life far beyond the fight  
And reach where there's no light or hope  
So the captives know  
And My enemies can see that I will  
Set My people free  
Set My people free

Who will listen if I can't speak  
I'll never move a mountain with arms so weak  
With one word You can make them fall  
You go before me now  
Your faithfulness destroys the doubt  
Your strength is fire to my soul

After all You've done in me  
I will be Your hands and feet  
Follow where You will lead  
As You say

Set My people free  
Go into the world, every boy and girl  
Deserves to know a life far beyond the fight  
And reach where there's no light or hope  
So the captives know  
And My enemies can see that I will  
Set My people free  
Set My people free

There's no weapon that will stand against the power I have given You  
No army that can stand between the prisoner and the truth when You say  
Set My people free, set My people free

Set My people free  
Go into the world, every boy and girl  
Deserves to know a life far beyond the fight  
And reach where there's no light or hope  
So the captives know  
And My enemies can see that I will  
Set My people free  
Set My people free

Set My people free  
Set My people free

Set My people free  
Set My people free
