

What Love Looks Like

Dara Maclean

Wake up, see it everywhere I look
Never imagined life could be this good
When You found me
It stopped me in my tracks
My world spins right at last

That's what love looks like
Words fail to say
Just what love looks like
When you give your heart away

It takes you in, holds you close
Never lets you go
So picture all the best things in life
That's what love looks like

It's losing yourself and discovering the truth
More than a feeling, Your love is living proof
The only thing that gives me any hope
Knowing I'll never be alone

That's what love looks like
Words fail to say
Just what love looks like
When you give your heart away

It takes you in, holds you close
Never lets you go
So picture all the best things in life
That's what love looks like

So let it find you
And it will guide you

That's what love looks like
Words fail to say
Just what love looks like
When you give your heart away

It takes you in, holds you close
Never lets you go
So picture all the best things in life
That's what love looks like
That's what love looks like

It takes you in, holds you close
Never lets you go
So picture all the best things in life
That's what love looks like
That's what love looks like
