

## Demon Eyes

Dargaard

I am one you called -  
Deep in the night you lost your soul.

Through demon eyes you saw  
What lies behind the mask of life.

To ride with me - to cross the firesea...  
Were these your greatest dreams?

Eternal wisdom you will earn -  
Far away from present days.

Through demon eyes you saw  
The spheres I left for centuries.

Shadows of the worlds beyond -  
They touch you like a burning wind.

A circlegate of neverending journeys  
In close to the eyes  
You now call your own.

Walk the path of spirit  
Into dimensions unknown.

Through demon eyes you died.
