

# Can't Stop Love

Darin

We stand here today, together as one  
You brighten my days just like the sun  
When everything 'round is like stormy weather,  
We always survive cause were in this together

Whoever said that we could never hold on,  
And don't know I found my star  
(Baby you are my star)  
And now I'm happy I stood up for so long  
And Baby this is where the story starts

I can't stop, can't stop this love  
No matter what they say, I love you  
I can't stop, can't stop,  
I love you, no matter what they say,  
I love you

They said this love was the impossible kind  
But we were strong enough to fight for this life  
I can't stop, can't stop this love  
No matter what they say, I love you

Now I'm carried away because I've opened my arms  
You're here to stay, deep in my heart

They said that we couldn't, but we did make it work  
And nothing could stop us,  
Not even two different worlds

Whoever said that we could never hold on,  
And don't know I found my star, yeah  
And now I'm happy I stood up for so long  
And Baby this is where the story starts

I can't stop, can't stop this love  
No matter what they say, I love you  
I can't stop, can't stop  
I love you, no matter what they say,  
I love you

They said this love was the impossible kind  
But we were strong enough to fight for this life  
I can't stop, I can't stop this love  
No matter what they say, I love you

I can't stop, stop,  
No I can't stop  
I can't stop, stop,  
No I can't stop

I can't stop, stop,  
No I can't stop  
I can't stop, stop,  
No I can't stop

I can't stop, I can't stop this love  
No matter what they say, I love you

I can't stop, can't stop  
I love you, no matter what they say,  
I love you

They said this love was the impossible kind  
But we were strong enough to fight for this life  
I can't stop, I can't stop this love  
No matter what they say, I love you.
