

## Dance

Darin

Girl, I can't help myself  
I'm stuck on the view  
I like the way you do  
The tricks that you do  
You're flirting with the music  
Like it's your boo  
Got me lost in my fantasy  
Picturing you and me

It's been a while and I still wonder  
If I'll take your hand, take over  
Control your body just for the night  
Let me bless your hips  
Just like you want to  
Every step I share it with you  
Let me do it right, do it right

You give me reason to party  
I'll probably spend all my money  
The way you Dance Dance Dance...  
Got your spell on everybody  
Girl you're an artist in naughty  
The way you Dance Dance Dance...  
And I don't see why I should stop  
Cause all we gotta do tonight is  
Dance Dance Dance...

I feel the ice is melting  
Because of you  
This drink could never ever  
Compete with you  
The way you make me feel  
It's hard to be true  
I'm so drunk on the energy you  
Putting inside of me

It's been a while and I still wonder  
If I'll take your hand, take over  
Control your body just for the night  
Let me bless your hips  
Just like you want to  
Every step I share it with you  
Let me do it right, do it right

You give me reason to party  
I'll probably spend all my money  
The way you Dance Dance Dance...  
Got your spell on everybody  
Girl you're an artist in naughty  
The way you Dance Dance Dance...  
And I don't see why I should stop  
Cause all we gotta do tonight is  
Dance Dance Dance...

'Ey mr DJ please do me as favor  
Turn it up a little bit  
I wanna do this number

See, I got this little shorty  
Acting like she really want it  
And for sure she gonna get it  
And she give me, give me, give me

You give me reason to party  
I'll probably spend all my money  
The way you Dance Dance Dance...  
Got your spell on everybody  
Girl you're an artist in naughty  
The way you Dance Dance Dance...  
And I don't see why I should stop  
Cause all we gotta do tonight is  
Dance Dance Dance...

The way you dance [4x]
