**Darin** 

Girl, I can't help myself
I'm stuck on the view
I like the way you do
The tricks that you do
You're flirting with the music
Like it's your boo
Got me lost in my fantasy
Picturing you and me

It's been a while and I still wonder If I'll take your hand, take over Control your body just for the night Let me bless your hips Just like you want to Every step I share it with you Let me do it right, do it right

You give me reason to party
I'll probably spend all my money
The way you Dance Dance Dance...
Got your spell on everybody
Girl you're an artist in naughty
The way you Dance Dance Dance...
And I don't see why I should stop
Cause all we gotta do tonight is
Dance Dance Dance...

I feel the ice is melting
Because of you
This drink could never ever
Compete with you
The way you make me feel
It's hard to be true
I'm so drunk on the energy you
Putting inside of me

It's been a while and I still wonder If I'll take your hand, take over Control your body just for the night Let me bless your hips Just like you want to Every step I share it with you Let me do it right, do it right

You give me reason to party
I'll probably spend all my money
The way you Dance Dance Dance...
Got your spell on everybody
Girl you're an artist in naughty
The way you Dance Dance Dance...
And I don't see why I should stop
Cause all we gotta do tonight is
Dance Dance Dance...
