

Seasons Fly

Darin

I still see your beautiful as you were
Like the winds you blow me away
To the dreams
That's where I meet you
I never wanna wake up

Wish we could stay here
In this moment
'Cause I miss you

Watching the seasons fly
Going around in circles
Why, why you left me all alone
Thinking why you can't come home
The nights are killing me
Without you baby I can't sleep
You took my heart out, kept it well
Now you're gone

For every step I take
The road just seems longer
Like in a box I'm not getting out
Wanna feel stronger
But the room is getting smaller
'Cause all I think about is her

Watching the seasons fly
Going around in circles
Why, why you left me all alone
Thinking why you can't come home
The nights are killing me
Without you baby I can't sleep
You took my heart out, kept it well
Now you're gone

You're gone

Watching the seasons fly
Going around in circles
Why, why you left me all alone
Thinking why you can't come home
The nights are killing me
Without you baby I can't sleep
You took my heart out, kept it well
Now you're gone x2

You're gone

So she's coming back no more
So she's coming back no more
So she ain't coming back no more
