

Heartbreak Road

Darius Rucker

You've got the keys girl, I'm just a rider
Gas it up and get us outta here
Put the pedal down, I wanna fly girl
Crank it up and catch another gear
Let's go to Vegas, hit California
Or Carolina where the southern breeze blows

You can take me to the moon and back
I can kick my boots off, relax in your Cadillac
Baby take me anywhere you wanna go
Just don't take me down Heartbreak Road no
Don't take me down Heartbreak Road

Baby you had me, first time I saw you
I said where you're going, take me there
Oh girl I'm in now for the long haul
You can pick the place, I don't care

We can drive all night, we don't need no plans,
remember that you've got my heart in your hands
Let's go to Vegas, hit California
Or Carolina where the southern breeze blows

You can take me to the moon and back
I can kick off my boots and relax in your Cadillac
You can take me anywhere you wanna go,
Just don't take me down Heartbreak Road no

You can take me to the moon and back
I can kick my boots off,
just lay back in your daddy's Cadillac babe
You can take me anywhere you wanna go
Just don't take me down Heartbreak Road no
Just don't take me down Heartbreak Road
