

# High on Life

Darius Rucker

It's been five days since I shaved, I swear  
My hair's gettin' long but I don't care  
Lawn chair sitting, ain't going nowhere  
A big old smile on my face  
Pointin' out pictures in a cloudy sky  
Craving me a piece of that pecan pie  
Might lay in the grass and kill some time  
Looking like I'm in a daze  
But it ain't no purple haze

I ain't stoned on what you think  
Just an afternoon sun that's starting to sink  
I ain't drunk on nothing you can buy  
Just a kiss from a woman and a look in her eye  
What I'm on you don't need much  
It's a little goes a long way kinda stuff  
Yeah, I'm breathing, yeah, I'm feeling alright  
I'm high on life

Gettin' buzzed by this bumble bee flying around  
My day in the sun is my night on the town  
Just me waking up is me getting down  
Spinning like a tilt-a-whirl  
Sitting on top of the world

I ain't stoned on what you think  
Just an afternoon sun that's starting to sink  
I ain't drunk on nothing you can buy  
Just a kiss from a woman and a look in her eye  
What I'm on you don't need much  
It's a little goes a long way kinda stuff  
Yeah, I'm breathing, yeah, I'm feeling alright  
I'm high on life

I ain't saying that stuff is bad  
But it's so low compared to the highs I have  
Counting my blessings, kicking back  
Sipping on sweet tea in a glass  
And watching my baby laugh  
Don't get much better than that

I ain't stoned on what you think  
Just an afternoon sun that's starting to sink  
I ain't drunk on nothing you can buy  
Just a kiss from a woman and a look in her eye  
What I'm on you don't need much  
It's a little goes a long way kinda stuff  
Yeah, I'm breathing, yeah, I'm feeling alright  
I'm high on life

I'm finally believing what I'm seeing  
That's why  
I'm high on life  
Oh, high on life
