

She's Beautiful

Darius Rucker

Have you ever seen a prairie wind
Make a wave on a wheat field bringing needed rain
Have you ever seen a mamma stop
A baby's cry with just the touch and a whisper of his name

When she looks at me
That's what I see

She's beautiful like that
Like a winter rose, snow on the ground
I was blessed the day I found her
I'm one lucky man
Cause the more I know the more I need her
The more I love the more I see her heart
Is a shining star
She's beautiful like that

Have you ever seen a purple sky
Sun coming up bringing new life to everything it shines on
Have you ever seen a couple after 50 years
Laughing and holding hands still going strong

Well the reason why
I'll love her 'til the day I die

She's beautiful like that
Like a winter rose, snow on the ground
I was blessed the day I found her
I'm one lucky man
Cause the more I know the more I need her
The more I love the more I see her heart
Is a shining star
She's beautiful like that

The sound of a church bell
The road that leads back home
An unspoken promise
You'll never be alone

She's beautiful like that
Like a winter rose, snow on the ground
I was blessed the day I found her
I'm one lucky man
Cause the more I know the more I need her
The more I love the more I see her heart
Is a shining star
She's beautiful like that

She's beautiful like that
She's beautiful like that
