

# She's Beautiful

Darius Rucker

Have you ever seen a prairie wind  
Make a wave on a wheat field bringing needed rain  
Have you ever seen a mamma stop  
A baby's cry with just the touch and a whisper of his name

When she looks at me  
That's what I see

She's beautiful like that  
Like a winter rose, snow on the ground  
I was blessed the day I found her  
I'm one lucky man  
Cause the more I know the more I need her  
The more I love the more I see her heart  
Is a shining star  
She's beautiful like that

Have you ever seen a purple sky  
Sun coming up bringing new life to everything it shines on  
Have you ever seen a couple after 50 years  
Laughing and holding hands still going strong

Well the reason why  
I'll love her 'til the day I die

She's beautiful like that  
Like a winter rose, snow on the ground  
I was blessed the day I found her  
I'm one lucky man  
Cause the more I know the more I need her  
The more I love the more I see her heart  
Is a shining star  
She's beautiful like that

The sound of a church bell  
The road that leads back home  
An unspoken promise  
You'll never be alone

She's beautiful like that  
Like a winter rose, snow on the ground  
I was blessed the day I found her  
I'm one lucky man  
Cause the more I know the more I need her  
The more I love the more I see her heart  
Is a shining star  
She's beautiful like that

She's beautiful like that  
She's beautiful like that
