She's Beautiful

Darius Rucker

Have you ever seen a prairie wind Make a wave on a wheat field bringing needed rain Have you ever seen a mamma stop A baby's cry with just the touch and a whisper of his name

When she looks at me That's what I see

She's beautiful like that Like a winter rose, snow on the ground I was blessed the day I found her I'm one lucky man Cause the more I know the more I need her The more I love the more I see her heart Is a shining star She's beautiful like that

Have you ever seen a purple sky Sun coming up bringing new life to everything it shines on Have you ever seen a couple after 50 years Laughing and holding hands still going strong

Well the reason why I'll love her 'til the day I die

She's beautiful like that Like a winter rose, snow on the ground I was blessed the day I found her I'm one lucky man Cause the more I know the more I need her The more I love the more I see her heart Is a shining star She's beautiful like that

The sound of a church bell The road that leads back home An unspoken promise You'll never be alone

She's beautiful like that Like a winter rose, snow on the ground I was blessed the day I found her I'm one lucky man Cause the more I know the more I need her The more I love the more I see her heart Is a shining star She's beautiful like that

She's beautiful like that She's beautiful like that
