

## Rushes

Darius

She's got a blind smile and a soft touch  
A cute little dimple when she laughs too much  
They say you fall hard when you meet her  
Such is her allure  
She's got a quick wit and a fast tongue  
But she doesn't seem to know that she's the one  
They say she cheats charm when she whispers  
She's devilishly pure

You'd see if you knew her  
She doesn't know  
But its time I told her so

When I see your blushes  
From a compliment of mine it touches  
Something inside I'm getting rushes  
The adrenaline rushes  
And I'm fascinated  
That you really don't know how to take it  
When I look at you that way you feel naked  
And I'm so into you  
I'm getting rushes

She's about five nine  
Got a sexy stride  
With long tanned legs that she shouldn't hide  
With a fine air of innocence  
Nonchalance in every move  
She's a sweet sensation tease temptation

She looks good enough to eat

She's a fallen angel with a devilish streak

And so they say

Like with like will finally meet

You'd see if you knew her

She doesn't know

But its time I told her so

When I see your blushes

From a compliment of mine it touches

Something inside I'm getting rushes

The adrenaline rushes

And I'm fascinated

That you really don't know how to take it

When I look at you that way you feel naked

And I'm so into you

I'm getting rushes

When I like it I want more

And I like it and I want more

And I like it and I want more

Never felt it like this before

It's more than adrenaline rushes

It's the touch and the smell of skin rushes

Some call it love at first sight

I call it butterflies

When I see your blushes

From a compliment of mine it touches

Something inside I'm getting rushes  
The adrenaline rushes  
And I'm fascinated  
That you really don't know how to take it  
When I look at you that way you feel naked  
And I'm so into you  
I'm getting rushes
