

# No Tomorrow

Dark Angel

The soldiers, stand waiting  
To vindicate this war torn land  
The charge sounds, they march in  
They're wondering, will they survive  
The dawn comes, and then the light  
We take lives, we hear the screams

No tomorrow, evil has it's way  
No tomorrow, will I live through this day?  
No tomorrow, my life's on the line  
No tomorrow, there is still time

The valley, lays waiting  
The enemy, is stocking  
When night falls, we press out  
Advancing, til early dawn

No tomorrow, evil has it's way  
No tomorrow, will I live through this day?  
No tomorrow, my life's on the line  
No tomorrow, there is still time

Intrepid, our leaders  
Decisive, the final blow  
Destruction, great defeat  
Carnage, across the land

No tomorrow, evil has it's way  
No tomorrow, will I live through this day?  
No tomorrow, my life's on the line  
No tomorrow, there is still time
