

## Shadows over Transylvania

### Dark Funeral

Moonlight - descends in the land of the shadows  
The cold moon is rising, over blood red skies  
Wolves - cries in the freezing night  
Gathered in the twilight, to summon the master below

Rising shadows - over blood red skies  
Mournful cries - through the darkened night

Darkness - spreads in a shape of evil  
Over the rising kingdom of transylvania  
Shadows - surround the ancient castle  
The palace of death far away  
Where no light exists

In the realms of transylvania  
The purest blood shall flow  
The mortals shall please  
The hunger of the undead souls

Shadows - over transylvania  
Darkness - in the land of frost  
Whispers - in the winds of evil  
Storms - in the blood red skies
