## **Hot Poison**

## **Dark Lotus**

This is Lotus
Dark fucking Lotus
This is Lotus
Dark fucking Lotus

I need no introduction I'm from parts unknown With the power to end it all like Ol' Jim Jones I walk the dark side with both eyes closed And down below I'm known as the unexplainable

Coming out my mouth when I drool, sweating out my pores Show you different realms as I open up different doors Hold onto your ores, cause your boat's sinkin Faces melting off cheeks when I'm speaking

I'm still known for blood sippin
Don't matter, type A, O or B, I ain't trippin
I got a thirst like a curse in control
Till I'm carving up body parts and the heart from where it go

One drop will consume you
Two forever doom you
Standing over the body as we drink to the voodoo
Living with the demons and ghouls make me a custom
They eat whatever goes in the body after I cut them

They underneath the mortuary bumping this shit
Hot Poison
They built the Pyramids while bumpin this shit
Hot Poison
Way up on the mountain top they bumpin this shit
Hot Poison
When it comes to wicked bitch you know we the shit
Cause this is Lotus
Dark fucking Lotus
We got your poison

We possess any room leave it freezing cold First you'll get a bloody nose then your head will implode We will stretch you, break your spine in five places With tattooed bracelets and masked unpainted faces

Utterly demented Dark Lotus has them submitted On the minds of the serpents of the servant who ain't repented You summon the seventh sign, the plagues of undead With the pentagram as a reminder branded on your head

Open like an entrance No truth will ever suffice for any skeptic except for death sentence Fact in blood, splattered in ink blots Spell out a four lettered word as the blood clots

Me plus four more venomous pedals We re-ablaze hell the same day it froze We didn't pick our spots in this shit, we are chosen Now come on down bitch and feel this Hot Poison They underneath the mortuary bumping this shit
Hot Poison
They built the Pyramids while bumpin this shit
Hot Poison
Way up on the mountain top they bumpin this shit
Hot Poison
When it comes to wicked bitch you know we the shit
Cause this is Lotus
Dark fucking Lotus
We got your poison

Plagues evolve from each septahydro
A psycho who likes to leave most without a dome
Mostly in your home when you're thinkin you're all alone
Apparate like a ghost and disappear with your soul

I caught Lucifer and threw a hook through his mouth Cut it's belly open and cockroaches fell out But I stomped em all with Jamie, Joey, Paul, and Chris Ain't no wicked shit like this

They underneath the mortuary bumping this shit
Hot Poison
They built the Pyramids while bumpin this shit
Hot Poison
Way up on the mountain top they bumpin this shit
Hot Poison
When it comes to wicked bitch you know we the shit
Cause this is Lotus
Dark fucking Lotus
We got your poison
Cause this is Lotus
Dark fucking Lotus
We got your poison
