

## Serenity

Dark Lunacy

See my eyes, my breaking own  
The time has come and  
Stolen me all  
I'm walking to a puture lorn  
Stand in peace  
Where the silence grows  
A sleeping angel in front of me  
The stone and blood  
Turn hand in hand, and show me  
Garden gates so far from me  
The fear to carry on  
And this prayer is my only hope

Cover me, I'm feeling cold  
I know the buran is blowing back  
I'm waiting for the light  
Until my human cry  
Until serenity

Welcome clouds,  
My autumn shades  
Slowly burns your frozen grace  
Lead me too, across my pain  
Take me to ... Serenity  
Storm of life,  
Is breaking down the walls  
Dark or shine,  
The slaughter of mind  
I'm afraid, watching over me  
My lyrics arise

Wings of stone,  
I'm praying on my knees  
You know me, remember my name  
Just a dream, or a strange reality  
You're sleeping, I'm here ... awake

Welcome clouds,  
My autumn shade  
Slowly burns your frozen grace  
Lead me too, across my pain  
Take me to ... Serenity

Sign your face, my human cry  
Drink my tears  
And break the stone  
Eternity, eternity  
Take my hand ... Serenity.
