

# In the Heart of Stone

Dark Moor

You don't lie, you don't fight  
Don't plead for seeing the light  
you don't gaze the mean face  
don't try to pray  
just to save your illusions  
to save your shame  
now your life is impregnated of blame  
please help me, of kill me  
but don't bury my soul  
i'm dreaming, i'm screaming  
full of grief  
i'll be condemned without mercy  
without a song  
buy i've a nice hope

[Chorus]

The wind in my hair  
the sun under my veil  
i'll go though  
the road is hard and long  
thousand of questions  
and only one answer  
My anger is in the heart of stone  
I'm sneaking, I'm Creeping  
i'm needing all my faith  
I'm sinning i'm learning  
full of grief  
i'll be condemned without mercy  
without a song  
buy i've a nice hope

[Chorus]

Don't hit me, don't stave me  
What is my destiny?  
I'm sighing, i'm crying  
full of grief  
i'll be condemned without mercy  
without a song  
buy i've a nice hope

[Chorus]

"The Gates Of Oblivion"

2. A New World

Old world has left in starvation and disease  
fourteen ninety-two bring a new change to see  
Across the ocean the would sail  
(following out the dark blaze)  
They keep the route with an endless faith

[bridge:]

far beyond the earth's edge  
they will reach their dreams  
as a privilege  
sun still soreads out it dreams

[Chorus:]

With the winds of the sea  
always dlowing from the east  
three boats dare to face  
just a will, a delief  
which could cross the deep abyss  
to discover a new world

saving humanity  
suddenly a joyful cry  
was heard in the advanced night  
the long awaited sight  
was seen below the sky  
new treasures shine before my eyes  
(they're bright like a burning fire)  
i will enjoy the eternal sea of life

[Bridge]

[Chorus]

inventus nautarum in novam terram  
argentum aurumque America  
but they didn't know  
that this virgin ground  
was an unknown land that overgrows  
new eden's found  
the lost paradise  
Mankind's dawn is beginning to rise  
this land is wild  
Our boots were defiled  
Our dreams will be reality  
the native's pain  
always in vain  
our glory was their agony  
But when Columbus told the queen  
all the things he'd see  
he had to submit and be agreed  
With kingdom's greed

[Chorus]

"The Gates Of Oblivion"  
3. The Gates Of Oblivion  
"The Gates Of Oblivion"  
4. Nevermore

Demons in my mind  
bind to write the world  
World forevermore  
horror  
Master of the pen  
when the raven lies  
Sighs, but never dies  
darkness  
The imp of  
The perverse  
whisper from the drink  
The mask of  
the red death  
Hides the face of his tortured soul

[Chorus:]

Free mind confirmed  
just behind reality  
its kingdom is by the sea  
Grim rhymes of yore  
were born in Baltimore  
the bird said: "Nevermore"  
He was in love for  
the only cause of doom  
fighting for love with  
the enamoured tomb  
Was his love  
like a dove  
tender sweet and frail  
Like a Sail  
in a gale

He was the eternal lover  
[Chorus]  
in the edge of knife  
Life in the tight rope  
hope to take the slope  
sorrow  
in the time of tears  
near the last shore  
sore to take the door  
Sadness  
the pit and  
the pendulum  
hang over his heart  
the black cat  
the one-eyed  
sees his conscience beyond the wall

[Chorus]

"The Gates Of Oblivion"

5. Starsmaker (Elbereth)

When day is out, i can see in the sky  
Plentyful forest made with the stars  
In cold night, i can feel the near-by  
goddess of asters no matter thou art so far

[Bridge]

but in my sorrow i need to see  
beatiful sunsets, precious to thee  
and in my travels when they're too long  
i'm just pay worship with this sweet song

[Chorus:]

Everytime I gaze the blue sky  
filling thy grace with love tears my eyes  
In thy face see the space  
in my cry, hear a sight  
Praying for thy light  
a during ship crossing the sky by day  
Sailing the morning. light is its trade  
A silver ship for love starting the chase  
when the night comes the light dies away

[Bridge]

[Chorus]

"The Gates Of Oblivion"

6. Mist In The Twilight

"The Gates Of Oblivion"

7. By The Stange Path Of Destiny

Walking trough the lane  
when conforms our life  
we play a fool's game  
to survive  
Pleasure enclosed me  
embracning with loving arms  
Pain came to me  
with great harm

[Brigde I:]

have you ever wonder  
are we just victims of fate  
Fed with the seeds of hate?  
why must be wander  
towards the dark unknow gate  
althrough our will is great?

[Chorus:]

Ol by the strange paths of destiny  
searching out hard my hidden place  
faces weave (the) life cord of humanity

in the end their last verdict can't wait  
goddess of fortune be by my side  
mother experience keep me alive  
unyielding time now has just decide  
if i'll survive  
I saw a siren  
in my lonely way  
lost in her silence  
(we) turn away

[Bridge II]

disgrace has found me  
it would try to make the fall  
but hope kept me from all  
anger had chained me  
but the siren set me free  
diving into life's sea

[Chorus]

"The Gates Of Oblivion"

8. The Night Of The Age

When the golden dusk covers me  
And the beams play with the trees  
Memories so come to my heart  
Because the guardian of the dreams departs

[Bridge:]

Who stole my illusions?  
Who stole my hopes?  
Why did the light go off  
And since I grope?  
Where will I find the force  
To untie the past's rope  
in my soul?

[Chorus:]

Go on

Within the black night of the age  
getting my sadness turn to rage  
Even oblivion  
So feeling will be free again  
the dreams will break the chains  
flying to the eternity  
Sometimes in dreams I see her eyes  
Watching me like wells of lies  
Those in the cold cloak of the night  
Were my sole flame, of whom I was acolyte

[Bridge]

[Chorus]

Where are the guardians of the dreams? Return to me  
Tell me answers that my mind will

[Chorus]

"The Gates Of Oblivion"

9. Your Symphony

I know that you need me  
To survive in this world  
world of empty words  
take my hand and feel me  
i i'll be your friend...  
forever be

[Bridge:]

In the depths of wind  
could be playing with me  
your symphony  
Playing on and on  
never be alone  
sing my song

I stay by your side, girl,  
through the endless hate, my dear,  
The rain disappears  
the poison of your life  
fills my glass and I...

I drink, I die

[Bridge]

[Chorus:]

You give me the light  
all my cold nights

Your fantasy

will me my symphony

"The Gates Of Oblivion"

10. The Citadel Of The Light

"The Gates Of Oblivion"

11. A Truth Of Me

My sorrow is like

leaves flying in the air

when the wind strikes

blowing everywhere

and i can't stay living in this tearful valley

so i just pray for having all the force

to be a stream leading its course

Flowing up to its source

[Bridge I:]

But my love is for the only light

but my heart goes to standing right

[Chorus:]

If I could flee

from my sorry thoughts

like the rivers running slope down at last to be free

When i see

lovers who can dream

with sweet fancies that will never be

a truth of me

nobody can live

twice in just one time

Neither can give

Twice love in its prime

but can't prevent feeling to surrender to love

So I feel myself prisoner of sin

when you give to the earth my skin

And my soul to the wind

[Bridge II:]

but my love is keeping watch the night

But my heart cries the eternal fight

[Chorus]

[Bridge I]

[Chorus]

"The Gates Of Oblivion"

12. Dies Irae (Amadeus)

Confutatis maledictis

flammis acerbis addictis

When the sun is flustered

and the moon is free

The great little master

Writes a little melody

the notes fever's in my breast

aches to be away

Eternal wisdom

in glorious kingdom

that is my sole wish

[Bridge:]

the first violin lead me while the harps  
embrace me like the blood  
the madness beats my art  
In the stage my baton cuts the air  
I am

in a world i never made, a man

[Chorus:]

Dies Irae, Dies Illa  
Solvent saeculum in favilla  
Teste David cum sibilla  
quantus tremor est futurus  
quanto iudex est venturus  
cuncta stricte discussurus

The sound is around  
long live to the king  
never falling down  
Rex gloria; Rex gloria  
witness of the time  
spirit is sublime  
no more feels of pain no more hate  
a revenge is going away

Where is my destiny?

Where is my fantasy?

I need to free my soul and cry  
someone to pray for me  
I need to free my soul and will die  
there wells up the only tear  
we shed without woe  
and ride like the wind because  
the music is enthralled  
the note's fever in my breast  
aches to be away

Eternal wisdom  
in glorious kingdom  
that is my sole wish

[Bridge]

[Chorus]

the soft sleep to your bed  
is not worth pursuing  
you will so soon be dead  
death will serve instead  
turns to the thing  
he was born to be  
a master to the king  
keep your fancy free  
in the deep of the sea  
Salva me, fons pietatis

[Bridge]

[Chorus]
