

# Goodbye

## Dark New Day

This time I'll never hear you  
(I'm never gonna hear you)  
Just go blind  
(just going so blind)

It feels so good when I say it  
Goodbye to you  
There's no good way to take it  
Goodbye to you

I wonder if you notice  
How many runaways  
You came for the rise!  
It's mine, you cannot steal  
What you can't find (what you'll never find)

It feels so good when I say it  
Goodbye to you  
There's no good way to take it  
Goodbye to you

So long!  
So long!  
So long!  
So long!
