

Goodbye

Dark New Day

This time I'll never hear you
(I'm never gonna hear you)
Just go blind
(just going so blind)

It feels so good when I say it
Goodbye to you
There's no good way to take it
Goodbye to you

I wonder if you notice
How many runaways
You came for the rise!
It's mine, you cannot steal
What you can't find (what you'll never find)

It feels so good when I say it
Goodbye to you
There's no good way to take it
Goodbye to you

So long!
So long!
So long!
So long!
