

# Fight With Myself

Dark Princess

Night... I'm waking from a terrible sleep.  
Light... and now I see clearly - it's real.

You are leaving my home  
And burning my world.  
Take away my dead soul  
There's no sense to hope  
I know it's the moment  
To declare war

Mortal fight inside  
Blood will spill every night  
You've betrayed my dreams!  
Pain is all that I can feel

[Chorus:]  
Fight with myself...  
And nobody wins  
Fight with myself  
Please, heaven help me!  
Fight till the death,  
Till I shall forget that you live,  
And, at last,  
Till my heart shall forgive

So, the morning comes  
The game has just begun  
I will kill my love hatred  
Help me win this war  
(This War)

[Chorus]
