

## Cathode Ray Sunshine

## Dark Tranquillity

Carry our streams  
Lift up our less than elated lives  
Transmit ourselves  
We breathe out  
Where no one whispers

Take in all the dark light  
Turn the nightttime into day

Cathode ray sunshine  
Speak out and we receive  
Cathode ray sunshine  
Show me and let us in

Alienate  
Block out all  
Amid the breaking of the light  
See it again and again  
Single sight

Sensory perception  
Turn the nightttime into day

Cathode ray sunshine  
Speak out and we receive  
Cathode ray sunshine  
Show me and let us in

To our great distrust  
Escapism a means of  
Getting through alive  
Take it in and spit it out again  
That measly filth

Focal degradation  
Bring the chaos into light  
Cathode ray sunshine  
Burn
