

# Armageddon Time

Darkbuster

What I said before was just a warning  
My world is coming to an end

It's armageddon time, It's armageddon time again  
It's armageddon time, It's armageddon time again

I can take it just like I can give it  
I've traveled this road once before

It's armageddon time, It's armageddon time once more  
It's armageddon time, It's armageddon time once more

Glad my war is over  
Another battle won  
I'm begging for forgiveness  
For everything I done

Pestulence and Death are on their horses  
Famine and War right by their sides

It's armageddon time, It's armageddon time tonight  
It's armageddon time, It's armageddon time tonight  
It's armageddon time, It's armageddon time  
It's armageddon time, It's armageddon time  
What I said before was just a warning  
My world is coming to an end

It's armageddon time, It's armageddon time again  
It's armageddon time, It's armageddon time again

I can take it just like I can give it  
I've traveled this road once before

It's armageddon time, It's armageddon time once more  
It's armageddon time, It's armageddon time once more

Glad my war is over  
Another battle won  
I'm begging for forgiveness  
For everything I done

Pestulence and Death are on their horses  
Famine and War right by their sides

It's armageddon time, It's armageddon time tonight  
It's armageddon time, It's armageddon time tonight  
It's armageddon time, It's armageddon time  
It's armageddon time, It's armageddon time
