

# Let Me Go

Darkbuster

Time stood still  
Something come between us  
The bitterest pill to take

We were just fools in love  
In the city  
Something had to break

And you've gotta let me go  
Turn me out  
Let me go on

Now I'm through with all your troubles  
And I ain't gonna lose this time  
No more tears  
I cried my eyes out  
Time for a brand new start

And you've gotta let me go  
Turn me out  
Let me go on

Let me go  
turn me out
