

No Future

Darkbuster

It's hard to believe that there ain't anymore
You're ash to ash
you're dust to dust

You wanna know why I live like there's no future
You wake up one day it'll all be gone
It's all gone

Live life like there's no future
Live like there's no future tonight

Where did you come from and where have you been?
You're playing a game you can never win
You won't win

You wanna know why I live like there's no future
You wake up one day it'll all be gone
It's all gone

Live life like there's no future
Live like there's no future tonight
