

Nothing At All

Darkbuster

So your tired, You've been beat up
Your lying face down on the floor
You don't worry what you look like
You smell like shit and alchol
And you've got no friends

You've Been Left With Nothing At All

So your tired, You've been beat up
Your lying face down on the floor
You don't worry what you look like
You smell like shit and alchol
And you've got no friends

You've Been Left With Nothing At All
You've Been Left With Nothing At All
You've Been Left With Nothing At All
And you've got no friends

So your lying in your room and
Your waiting by your telephone
You don't wonder why your home
Your just wondering why your all alone
And you've got no friends

You've Been Left With Nothing At All
You've Been Left With Nothing At All
You've Been Left With Nothing At All
And you aint got no, you aint got no friends
You've been left with nothing at...
Left with nothing at all
Left with nothing at all
Left with nothing at all
Left with nothing at all
And you aint got no, you aint got no friends
You've been left with nothing at all
