

## Nothing At All

Darkbuster

So your tired, You've been beat up  
Your lying face down on the floor  
You don't worry what you look like  
You smell like shit and alchol  
And you've got no friends

You've Been Left With Nothing At All

So your tired, You've been beat up  
Your lying face down on the floor  
You don't worry what you look like  
You smell like shit and alchol  
And you've got no friends

You've Been Left With Nothing At All  
You've Been Left With Nothing At All  
You've Been Left With Nothing At All  
And you've got no friends

So your lying in your room and  
Your waiting by your telephone  
You don't wonder why your home  
Your just wondering why your all alone  
And you've got no friends

You've Been Left With Nothing At All  
You've Been Left With Nothing At All  
You've Been Left With Nothing At All  
And you aint got no, you aint got no friends  
You've been left with nothing at...  
Left with nothing at all  
Left with nothing at all  
Left with nothing at all  
Left with nothing at all  
And you aint got no, you aint got no friends  
You've been left with nothing at all
