

Try To Make It Right

Darkbuster

Woke up this morning
Sunlight hurt my eyes
I looked around and noticed you were gone
Much to my surprise
I really don't remember
Did I do something wrong?
Come back baby, please come home

And I'll try to make
And I'll try to make it right
And I'll try to make
And I'll try to make it right

What happened to you?
You left me flat
I turned around and you were gone

Play that f**kin' guitar!

And I'll try to make
And I'll try to make it right
And I'll try to make
And I'll try to make it right
