

Bearer Of Blackest Might

Darkened Nocturn Slaughtercult

Ye enter
Bearer of blackest might!

Gustiness upon sacred soil.
Their savior's recourse where chants of subservient
parasites resound.

This hallow wooden truss gnashing,
as venerable gates violently open.

Behold your scraggy redemption's countenance,
Bestriding an expectorating beast,
Claws upholding hell's glistering bane,
The body covered in putrid shrouds.

They're chanting their last hymn,
Reciting their final prayer,
Permit the secrets of heaven to be revealed.

As your praise and yearning is infinite,
Your path shall be paved in eternal darkness embedded
by the fire of the uphold torch.

Ye enter
Bearer of blackest might!
