

## Another Reason

Darkest Hour

Keep your eyes on the trigger,  
and your mind on the ecstasy,  
just caress the emptiness,  
sit back and let it bleed,  
we need salvation,  
we need another god on the TV screen,  
we need to believe,  
fill your pockets with others casualties,  
just a talk show leper prophecy,  
just caress the emptiness sit back and let it bleed,  
can you show me happiness,  
can you show me the other side of the prison chain,  
can you show me primetime addiction,  
sadistic delusion,  
our father, our sponsor, our cheap plastic figure,  
our father, our sponsor, can you spare me one more dollar.
