

Hypatia Rising

Darkest Hour

Pray and lie when you pray you just talk to die
Refill your mistake that are for a line
Sure that aware you and can't look at the eyes
Trust yourself you can find with the power of the eyes
The word had change, the word it's changing
They said you are cracking yourself
You can find with the power of all

And lies by the starlight
You could never relate to the word
You could ever rely
You could not say what the without the days then the night

They all tell
Well first link it right ad find where the power stay
And lay by the start light
You could never relate to the world
You can never reply not that day from the night

Look at past last thing you love is lies
Look at past last thing you love is lies
