

Lost for Life

Darkest Hour

Can you remember the day
You saw that your older noise is a slave?
You are the problem, get the fuck out of the way
No nobody is gonna stay
So nobody's on your side
This never ends
But you will never fucking understand
This was all you could air

We're lost for life, we're lost for life
I just wanted to rest in the light
Lost for life, lost for life

You know I can't get enough
But I'm just lost for life
I'm just lost for life
You will never fucking understand
I'm at the other end

I'm waiting for the sun
Whatever has arrived
I will suggest for a prize don't even try to escape
I can't wait to provide
You wanted this, you're so alive
I'm just resting in light
I'm lost for life
