

## Lost for Life

Darkest Hour

Can you remember the day  
You saw that your older noise is a slave?  
You are the problem, get the fuck out of the way  
No nobody is gonna stay  
So nobody's on your side  
This never ends  
But you will never fucking understand  
This was all you could air

We're lost for life, we're lost for life  
I just wanted to rest in the light  
Lost for life, lost for life

You know I can't get enough  
But I'm just lost for life  
I'm just lost for life  
You will never fucking understand  
I'm at the other end

I'm waiting for the sun  
Whatever has arrived  
I will suggest for a prize don't even try to escape  
I can't wait to provide  
You wanted this, you're so alive  
I'm just resting in light  
I'm lost for life
