

Rapture in Exile

Darkest Hour

Fight , waiting around inside
Without my life I would be dead inside
Feel as a guide, the fire for sun
The rapture in exile

We're bad and surrounding
We're waiting for the classic
Fuck, you're waiting around to die
Without my life I would be dead inside
I am your legally arm
You will never take me down

Fuck you're waiting around to die
Without my life I would be dead inside
I am the rapture in exile

If you could, you'd continue with lies?
That you never understood is that this world could be yours
Would you change it if you could?

If you could, you'd continue with lies?
That you never understood is that this world could be yours
Would you change it if you could?
I don't think you want it
