

The Best Of Me

The Darkness

I get up (he gets up)
To see you wallow in defeat
I get down (he gets down)
With almost ev'rybody I meet except you
And I fail to see why I should care
That you have had thirty-six years of pain to share

Did what I did what I did for you
You've got the best of me
Did what I did for you
You've got the best of me

I get up (he gets up)
To see you look perpetually
I get down (he gets down)
To watch you fail spectacularly

Oh boy
And I fail to see why I should care
That you have had thirty-seven years of pain to share

Did what I did what I did for you
You've got the best of me
Did what I did for you
You've got the best of me

Did what I did what I did for you
You've got the best of me
Did what I did for you
You've got the best of me
