Be Ever Heard

Darkseed

Long time ago my work began

Completed now, when I'm a man

I drunk the wine of paradise

Much force I gained with many sighs

"Now You cease away, You come to me You leave Your world with grim and cry out loud"

I really know the uses of the world The voice I always hear, be ever heard!

I won't stop here, but gently pass I will sink ere night be passed I happy child of earth was I bright as a star in our skies!

Cold astral stars, eternity
Now there may come new days to me
Now motionless like bleeding ice
I sing like wind short lives and dies
Short lives and dies!
