

Everything To Me

Darlene Zschech

You chased me
I caught you
so glad we found each other

We whispered forever
To share our lives together
To watch our dreams unfold

And I love everything about you
Everything you are
You'll catch a falling star
If I asked you
And I couldn't live a single day without you
You hold me in your arms
And once again I know
that I'm the only one for you

The way you laugh
The way we dance
The way you hold my hand

The way you give
The way you kiss
The way you look at me
You make life beautiful

Oh, I love the light that shines in your eyes
When you talk about our girls
and love the way you smile
when they walk into the room

Oh, I love how you care about brokenness
How injustice moves your heart enough
To make a change
You give all you are
Everyday
