

# Heaven On Earth

Darlene Zschech

Rags to riches, so they say  
She got her break and she found her way  
I admit this may sound strange  
This girl is dancing a different way

If they only knew how You've mended  
My broken wings, now I'm flying

Your love is Heaven on Earth  
I'll shout it out to all of the world  
There's no doubt my greatest dream has come true  
Just to be loved by You

Whom You set free is free indeed  
I've got the strength of my God in me  
Well, You restored my dignity  
Oh, completely, You love me

If they only knew how You've mended  
My broken wings, now I'm flying

Your love is Heaven on Earth  
I'll shout it out to all of the world  
There's no doubt my greatest dream has come true  
Just to be loved by You

I'm in Heaven, Heaven on earth  
Promise to promise, this must be Heaven on earth  
Glory to Glory, this must be Heaven  
Heaven on Earth

Well, if they only knew how You mended  
My broken heart, now I'm living

Your love is Heaven on Earth  
I'll shout it out to all of the world  
There's no doubt my greatest dream has come true  
Just to be loved by You
