## Thankful

## **Darlene Zschech**

I felt your gentle rain You wash over my heart again And I find You here I Find You here You take me by the hand And when I dont understand You hold me You hold me

To the cross I come again I'm so thankful, I'm thankful You're mercy over me again I'm so thankful, living God I wanna thank You living God

In the light of day You're truth defies my way And You call me Yours I'm forever Yours

For eternity, You will be, You will be Yesterday, today and forever, You remain the same

To the cross I come again I'm so thankful, I'm thankful You're mercy over me again I'm so thankful, living God

To the cross I come again I'm so thankful, I'm thankful You're mercy over me again I'm so thankful, living God I wanna thank You living God
