

Where Would I Be

Darlene Zschech

You knew me
Even as a child I heard
You call me closer
Clearly like a song I've always known
You would play for me

Like the breaking of the dawn
Everyday I long for more of you
Where would I be without your love
Where would I be without your hand on my life

Lifted through the valleys
Through the pain I know you're with me carried
Like I'm dancing in the rain
You cover me

Then you catch me when I fall
As we walk this gift of life
I need you

Forever I will follow you
I will live for you
Forever I will worship you
I will follow you
Forever I will live for you
I will worship you forever

Will you dance with me again
For I can only live this life with you
Where would I be without your grace
Where would I be without your refuge over me
