

# Wonderful You

Darlene Zschech

I wake to see the sun rise from her slumber  
I hear the birds sing their songs of love  
A knowing smile warms my face, I remember  
To be thankful, it's a beautiful day  
My lost and lonely heart was calling  
Out to find the way

Then I found You, wonderful You  
Like a dream You came, let me live again  
Oh, now there's You, glorious You  
I need forever to know You way

There was a time when peace of mind just eluded me  
And the sun was always clouded from my view  
But You opened up my heart to see a new day  
Now this fire within me needs to praise  
I once was lost, but then You found me  
I'm in Your arms to stay

How I love You, wonderful You  
Like a dream You came, let me live again  
Oh, now there's You, beautiful You  
I need forever to know You way

Take my hand  
Show me the Word  
Change my heart  
Oh, let it be true

Take my hand  
Show me the Word  
Change my heart  
Oh, let it be true

My lost and lonely heart was calling  
Out to find the way  
Oh, I once was lost, and then You found me  
I'm in Your arms to stay

Now I've got You, wonderful You  
Like a dream You came, let me live again  
Oh, now there's You, glorious You  
I need forever to know You way

How I love You, wonderful You  
Like a dream You came, let me live again  
Oh, I love You, beautiful You  
I need forever to know You way
