

## She Sews The World With Love

Darrell Scott

My love she takes a needle and a thread  
With a box of cloth she keeps under the bed  
And she makes a form where there was none  
A house, a square, a star, a moon, a sun  
She sews the world with love

We sleep beneath a comforter she made  
From some old faded jeans of mine she saved  
And it warms us on a winter night  
And cheers us in the summer light because  
She sews the world with love

And if she ever leaves me it'll be her final rest  
I'll spend my days knowing that I have loved the best  
And if I go before her and leave this world below  
I leave my music for posterity  
But my love will get my clothes

We made a child in the first part of the year  
And on a singer's pay we've had our share of fear  
But we'll wrap the the babe in swaddling clothes  
With quilts and shirts and pants and hats she sews  
She sews the world with love
