

High School Rock Out

Darren Criss

Let's go to class to kick your ass
You're not too sure if you can last
Without going back to your work
But it's alright 'cause you'll be trying not to die
And you'll be trying not to lie
Because you're sitting next to her
Well, baby, I don't mind

So you thought your name was called
From half way down the hall
From the dude with a basketball in his hand
And you think he might be waiting
But behind him is your raven
Singing "Nevermore" I'm laying him down
Well, baby, I don't mind
'Cause it's not hard to be spending my time
With someone who will let me go, don't care no more
I just want to get out of here to play some rock and roll

It's a high school rock out
It's a fucking knock out here
And nobody cares
So, everybody scream at the top of your lungs
'Cause nobody, nobody, nobody, nobody really cares

Well, it's prom night again
Be polite to my friends
'Cause we like to pretend that we're cool
And that's just fine, we like the music
'Cause the rock and roll enthusiasts
And bands are having a hell of a time
And it makes me go crazy, out of my mind
Just what am I doing here
Wasting my time with someone who will let me go
Don't care no more?
I just want to get out of here to play some rock and roll, oh baby

It's a high school rock out
It's a fucking knock out here
And nobody cares
So, everybody scream at the top of your lungs
'Cause nobody, nobody, nobody, nobody really cares

Well, the song is sung and all is done
And everyone is having fun
But in comes Mr. Sad-As-Can-Be
And he's got problems up the wall
But nobody cares at all
Because we don't want to catch his disease
But it's cool 'cause everybody says

It's a high school rock out
It's a fucking knock out here
But nobody cares
So, everybody scream at the top of your lungs
'Cause nobody, nobody, nobody, nobody, nobody, hey!

It's a high school rock out
It's a goddamn knock out here
And nobody cares
So, everybody scream at the top of your lungs
'Cause nobody, nobody, nobody, nobody really cares

Nobody cares
Nobody cares
Nobody cares
