

# Stutter

Darren Criss

Remember that time?  
When you wouldn't talk to me?  
You wouldn't talk to me  
All night

Remember that song?  
And all the words we'd sing?  
Well here's a song I sing  
All right

Remember that way?  
How you'd never lie to me  
'Cause you'd never lie to me  
No way

You could be faking it  
God, don't be like that  
I don't like the way you act  
'Round me

So baby come on, come on...

Oh, don't you tell me no  
There you go again  
You're ten out of ten  
Sorry, did I just s-stutter?

Won't tell you what you know  
There you go again  
You were never my friend  
You were never my-  
You were never my lover! No.

Remember that night?  
When I saw you standing there?  
Dark eyes and dark hair  
It's just you

Remember the way?  
How you were way out of line?  
And I was way out of time  
For you

And I got your number  
Right next to your name  
But it ain't no thing, no  
No it ain't enough

And I've got your word I know  
But it's all I'll get  
Trying to forget  
Your kind of love

So baby come on, come on...

Oh, don't you tell me no  
'Cause there you go again

You're ten out of ten  
Sorry, did I just s-stutter?

Won't tell you what you know  
But there you go again  
'Cause you were never my friend  
You were never my-  
You were never my lover!

I know you could be better  
Don't have to waste my time  
It's not like I need you more than  
I need me and mine

But I know that you want it  
Trying to get you on it  
Baby we could fuck the rights  
Turn around and wrong it

Spare me your convictions  
The promises you keep  
I've got a better proposition  
And the friction that you need

Don't you tell me that  
You don't want to  
Don't you tell me that  
You don't want to

Oh, don't you tell me no  
'Cause there you go again  
You're ten out of ten  
I'm sorry d-did I just s-stutter?

Won't tell you what you know  
But this is the end  
You were never my friend  
You were never my-  
You were never my lover!
