## **Bombs Up in My Face**

## **Darren Hayes**

Now everybody's beautiful When they're young And I should know I've had more than my share of fun

There's all this fascination With the impossibly thin With the surface of things Airbrush Photoshop creation

In all that we are losing Aren't we just confusing Youth with beauty? Truth with duty?

There's something on the telly 'bout North Korea Some war broke out don't trust the media I'd like to get a suntan
Some dude was shot in Pakistan

The track's got noddage Moves my boddage The track's got noddage The track's got noddage

They've got those bombs up in the planes They've got those bombs up in the trains They've got those bombs up in my face Don't wanna talk about it (2x)

I was walking through the city Past a phone shop and a homeless man Was lying there looked almost dead And no one seemed to bother

I ran into a rock and roll band Two or three of them, maybe four This one punk just 19 years old He gave me his persuasion

He looked at me with his one black eye Looked down on me like I didn't have a life And he was right At least not the kinda life he'd been paradin'

Same sex union (ooh!)
Change the constitution
You can carry a gun
But you better not fall in love with someone

The President who fucked the world For every future boy and girl Is golfing in Aruba With a suntan and scuba

The track's got noddage

Moves my boddage
The track's got noddage
Moves my boddage
Moves my boddage
Moves my boddage

They've got those bombs up in the planes They've got those bombs up in the trains They've got those bombs up in my face Don't wanna talk about it (2x)

Now everybody dies or fades away A permutation white and grey A synergy of light and dust And skin cells constantly aging

You fell in love with the dream To fuck forever endlessly But you don't, and that's ok The rest is better anyway

Botox bungle CNN
Infomercial count to ten
Change the channel VCR
Something's on my radar

The track's got noddage Moves my boddage The track's got noddage

They've got those bombs up in the planes They've got those bombs up in the trains They've got those bombs up in my face Don't wanna talk about it (4x)

They've got those bombs up in the planes They've got those bombs up in the trains Don't want to talk about it
