

# Breathless

Darren Hayes

We were young, we were chasing all our dreams  
The future seemed like it was perfect  
Love was something only we knew  
Time change things rearrange  
Life gets in the way  
Wish we could start anew  
But maybe that's impossible cause

If you leave me now, you leave me breathless  
Don't let go  
Well you may be through but I'm not through with you  
If you let go, you'll leave with all of our yesterdays  
You may be through, but I'm not through with you.

When we met it was said our souls had come to reconnect  
It felt so perfect you couldn't bare to leave my side  
But now you're sleeping alone  
All the contents of my head racing over words we said  
Some things aren't retractable

If you leave me know, you leave me breathless  
My head held down  
Well you may be through, but I'm not through with you  
If you let go, you'll leave with all of our yesterdays  
You may be through, but I'm not through with you.

I'm not through with loving you  
We've got so much more to do  
There are beaches in the sun we have left our footprints on  
I know I could try but I'll never find another you  
Darling come back to bed and find what we've been losing.

Well you may be through but I'm not through with you.
