

# Ride

Darren Hayes

Come on  
Baby baby come on  
Baby baby come on

You only know one half of me  
Up until now it's all I let you see  
I used to reveal selectively  
But now I'm changing  
So baby come on inside  
Baby get on this ride  
Get closer to me  
Don't you know that  
It's time to take control  
To take what's mine  
Gonna take it home  
I think I'm about to fly, so here we go

Baby get on this ride with me  
Baby come on sit next to me  
Baby get on this ride hold on tight  
Cos we've got all night  
Baby get on this ride with me  
I wanna feel you next to me  
Baby get on this ride  
Hold on tight  
Buckle up right now  
Baby come on

Feels like I've been locked up all my life  
Held down denied the right to fight  
Nobody else could do this right  
I'm just arriving

Baby get on this side  
Baby get on this ride  
Get closer to me

Don't you know that  
It's time I let you know  
I got so much further that I could go  
It's time to start the show  
So here we go

Baby get on this ride with me  
Baby come on sit next to me  
Baby get on this ride hold on tight cos we've got all  
night  
Baby get on this ride with me  
I wanna feel you next to me  
Baby get on this ride  
Hold on tight  
Buckle up right now  
Baby come on

If you want what I want we won't have a problem  
You see in the past I just compromised  
I've been taking a backseat but that's not me no longer

I don't feel shy, don't want to hide, I'm ready to fly

Now baby come on

Come on

All you my people, my people

Tell me now

Baby come on

Baby get on this ride with me

Baby come on sit next to me

Baby get on this ride hold on tight cos we've got all night

Baby get on this ride with me

I wanna feel you next to me

Baby get on this ride

Hold on tight

Buckle up right now

Baby

Get on this ride with me

I wanna feel you next to me

Baby get on this ride hold on tight cos we've got all night

Baby get on this ride with me

I wanna feel you close to me

Baby get on this ride

Hold on tight

Oh Yeah

Come On

Baby get on this ride hold on tight

Tell me

My people, my people

All you

My people my people

Tell me
