

Heartbeatz (re-con Remix)

Darren Styles

My heart beats, my heart beats, my heart beats, my heart beats
My heart beats, my heart beats, my heart beats, my heart beats

Alone tonight
Stars shining bright
Can I dream that you're beside me?
I wait for you
What can I do?
Heavens know if only you love me

And my heart beats just like a drum
And my heart beats, it goes boom, boom, boom
And I'm needing you, won't let me go
You started this desire
(2x)
And my heart beats...

And in the heat
My body's weak
In my world your love surrounds me
I wonder why
We have begun
Won't you put your arms around me?
Won't you put your arms around me?

And my heart beats just like a drum
And my heart beats, it goes boom, boom, boom
And I'm needing you, won't let me go
You started this desire
(2x)
