

Right By Your Side

Darren Styles

I wanna be right by your side

Don't you know, baby it's true
That these feelings there only for you
Should I hold you 'coz I can...
Can you feel it?
Understand that for me you are the one

I wanna be right by your side
And I will never let you go
I know I'll never let you go
I wanna be right by your side
And I want only you to know
I'll never let you go

I wanna be right by your side
And I will never let you go
I know I'll never let you go
I wanna be right by your side
And I want only you to know
I'll never let you go

For all this time
I've been loving you
And when I'm dreaming
I only see you
Could you hold me again
Are you more than a friend
'Coz to me you are the one

I wanna be right by your side
And I will never let you go
I know I'll never let you go
I wanna be right by your side
And I want only you to know
I'll never let you go

I wanna be right by your side
And I will never let you go
I know I'll never let you go
I wanna be right by your side
And I want only you to know
I'll never let you go

I wanna be
