

## Right By Your Side

Darren Styles

I wanna be right by your side

Don't you know, baby it's true  
That these feelings there only for you  
Should I hold you 'coz I can...  
Can you feel it?  
Understand that for me you are the one

I wanna be right by your side  
And I will never let you go  
I know I'll never let you go  
I wanna be right by your side  
And I want only you to know  
I'll never let you go

I wanna be right by your side  
And I will never let you go  
I know I'll never let you go  
I wanna be right by your side  
And I want only you to know  
I'll never let you go

For all this time  
I've been loving you  
And when I'm dreaming  
I only see you  
Could you hold me again  
Are you more than a friend  
'Coz to me you are the one

I wanna be right by your side  
And I will never let you go  
I know I'll never let you go  
I wanna be right by your side  
And I want only you to know  
I'll never let you go

I wanna be right by your side  
And I will never let you go  
I know I'll never let you go  
I wanna be right by your side  
And I want only you to know  
I'll never let you go

I wanna be
